

SOLAR COLLECTOR FOR SWIMMING POOL TEMPERATURE

CHARACTERISTICS

Warranty 3 years.		
Useful life time 6 - 7 years		
Pool Heater Material: EPDM- Ethylene-Propylene-Diene-Monomer.		
Heater Pipe Material: BBS-Acrylonitrite-Butadiene-Release		
Major Energy Production Specific Category		
There is no risk of overheating of the pool.		
It has large area of solar energy absorption.		
Pigmentado resistant to ultra violet rays.		
Lightweight, flexible, easy to demonstrate and install.		
Project to work with high flows.		
High resistance to pressure (Up to 40 mca).		
Made in different sizes.		
Zero maintenance.		
Measures	A	B
	1.33 m	3 m
