

**"WS-WSC WELLSEE" HYBRID REGULATOR
 WIND / SOLAR 30Ah**

TECHNICAL SPECIFICATIONS:

- Smart control microprocessor.
- Surge protection, short-circuit protection and polarity protection
- Inverted.
- Overload protection, over discharge protection.
- The light turns on automatically at dusk and turns off the light at dawn automatically
- Depending on the light intensity.
- Temperature compensation function.
- To recognize the wind turbine of load of voltage and current of full load and with system of Brake protection multiple wind turbine.

BRAND:	WELLSEE	MEASURES:	123 x 120 x 41mm
ITEM:	SOLAR / WIND HYBRID CONTROLLER	WEIGHT:	0.53kg
MODEL:	WS-WSC15 15A	PACKING:	40PCS / CTN

MODEL	WS-WSC 30AH
SYSTEM VOLTAGE	12V / 24V AUTOMATIC VOLTAGE RECOGNITION
MAXIMUM CHARGE CURRENT	30AH.
MAXIMUM DOWNLOAD CURRENT	30AH.
THE NOMINAL POWER OF THE TURBINE OF WIND	100 / 400W (12 / 24V)
HVD VOLTAGE CHARGING	14.4V / 28.8V
LOW VOLTAGE DIRECTIVE LVD	10.8V / 21.6V
LOW RESTORATION VOLTAGE LVR	11.8V / 23.6V
SURFACE PROTECTION	30AH.
PROTECTION AGAINST SHORT CIRCUIT	30AH
ROOM TEMPERATURE	-25 ° C / + 55 ° C
